

General

Manitowoc Public Library, in coordination with scout groups, is offering Robotics lessons to help members complete their Robotics badges.

Sessions run about an hour, and include hands-on experiences with technology toys.

Scout members will learn robotic terms, see examples of robots in the real world and then experience hands-on coding.

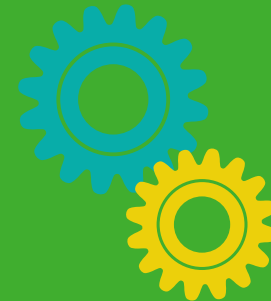

Manitowoc Public Library is proud to partner with scout groups to offer robotic programs to help them meet badge requirements.

MANITOWOC LIBRARY
ROBOTICS AND CODING
WORKSHOPS

TECH N'
SCOUTS

Sessions

- All sessions will be lead by a trained staff member
- Session availability is limited to two offerings per month
- Group sizes are limited due to tech toy availability
- Sessions are filled on a first come, first served basis

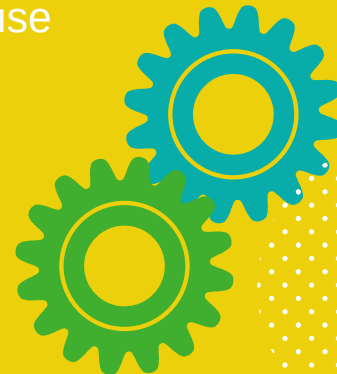

Robots

Manitowoc Public Library has several technology toys that will be used in helping scout groups complete their Robotics badge.

Sessions may include:

- building and coding with WeDos
- coding with Ozobots
- assembling and coding Snapcircuits
- assembling and coding Droid robots
- mixing, matching, and coding with Cubelets
- simple coding with Code N' go Mouse

Badges

- Each session will count towards earning a Robotics badge
- Sessions are available for any scout group or level
- Final awarding of badges is at the scout leader's discretion
